

Once Upon a Time, a Weight Loss Plan Actually Worked!

This is Hannah. Her story may be similar to yours, so you'll want to hear how it ends.

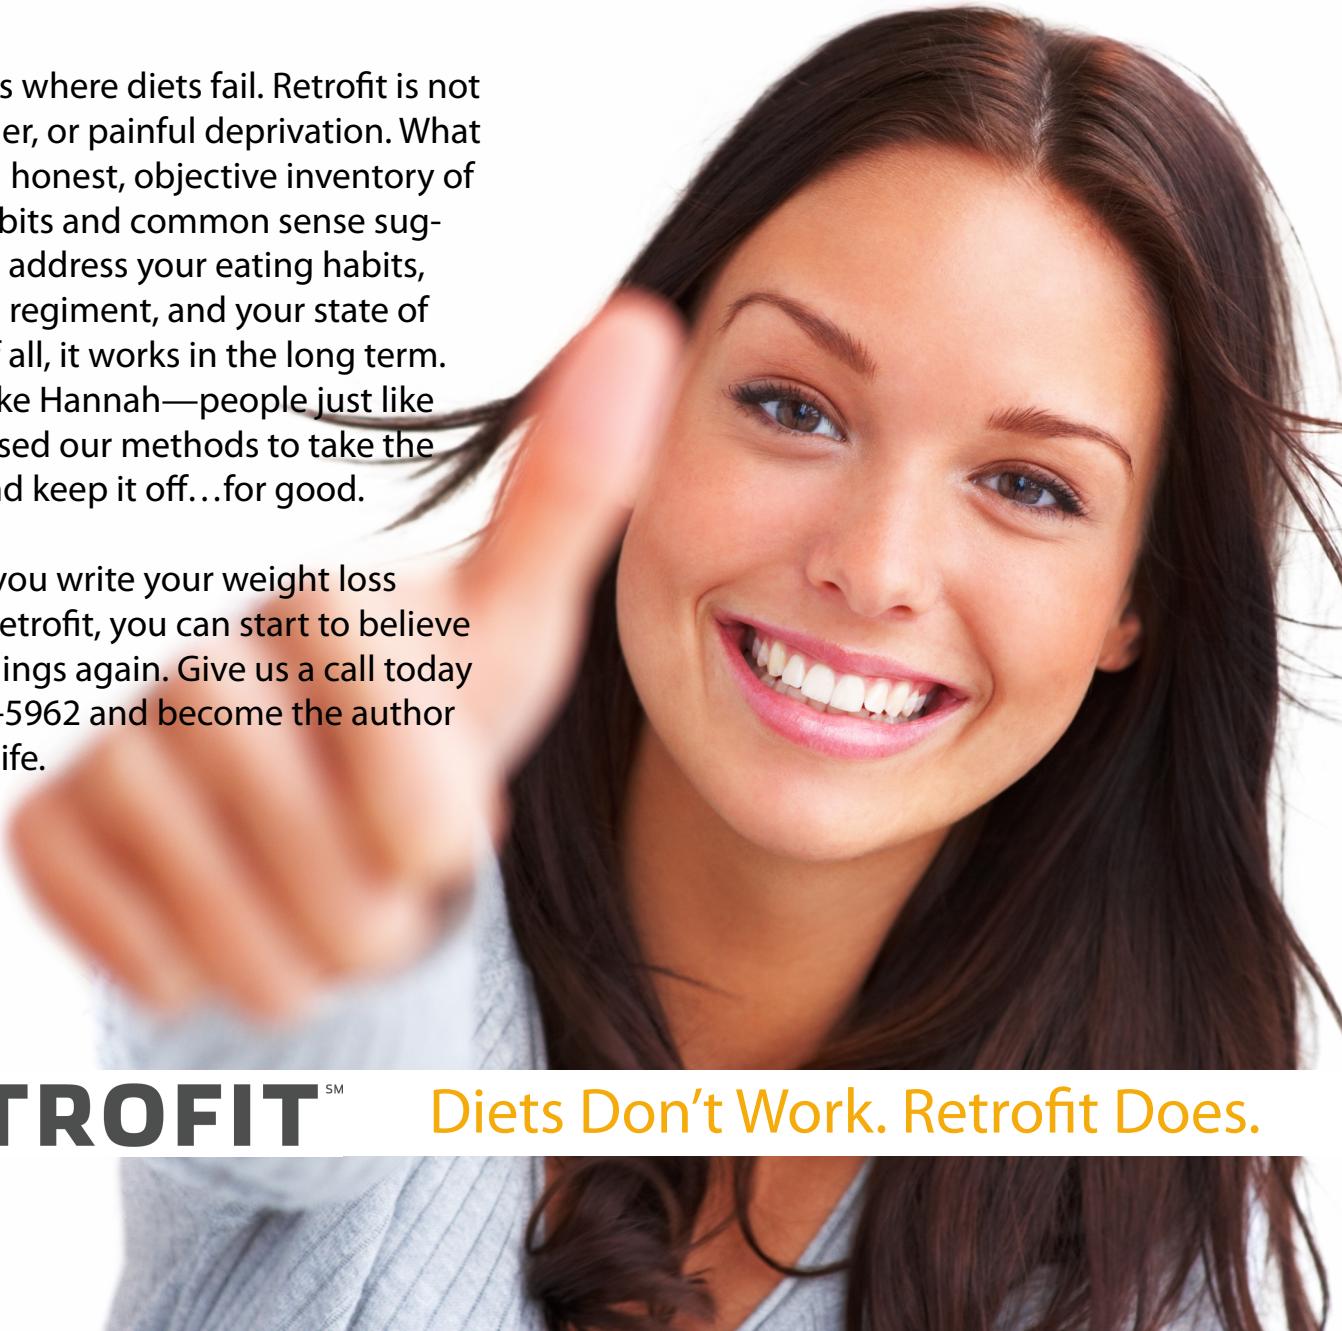

It starts with periodic fasting, fad diets, and mail-order weight loss pills. Sadly, none of these provided a solution to her problem. Even logging a hundred miles a week on a treadmill only yielded frustration. One pound forward, two pounds back. After almost a year of this cycle, desperation set in.

The thought of gastric bypass surgery terrified her, but she faced her fears and contacted some surgeons in her area. She gathered information, checked her insurance, made some decisions, and just when she was about to resort to desperate measures...

She found us.
